

Events

Protein Ontology Workshop 2019: The workshop will be held on October 23-24, 2019. Venue: Georgetown University.

Protein Ontology Workshop 2017: The workshop was held on October 11-12, 2017. Venue: The Jackson Lab, Bar Harbor, Maine.

Protein Ontology Workshop 2016: The workshop was held on November 14-15, 2016. Venue: Georgetown University, 3300 Whitehaven Street NW, Washington DC 20007. The goal of this meeting is to foster *collaborative community efforts* by defining real use case scenarios with selected collaborators while testing the interoperability and usability of PRO.

Protein Ontology Workshop: The workshop was held on June (17)-18-19, 2014. Venue: Georgetown University, 3300 Whitehaven Street NW, Washington DC 20007.

PRO-PO-GO Meeting: International Coordination Meeting for Ontology-Based Efforts for Plant Biology took place on: May 15-16, 2013. A meeting to promote the coordination of the Gene, Protein, and Plant Ontologies and of other reference ontologies used in plant biology. Venue: Ramada Inn, Amherst, NY 14221

Alzforum / Protein Ontology Kick-Off Meeting: The goal of this meeting was to initiate a project to create a protein information resource that will address the needs of Alzheimer's Disease (AD) researchers in a maximally effective way. Date and Venue : October 4-5, 2011, Hotel Indigo, Buffalo, NY

Protein Ontology 3rd Annual Meeting: The third annual meeting of the Protein Ontology project took place in University of Delaware on April 26-27, 2010. An annotation jamboree/workshop was conducted on April 28. Location: Clayton Hall Conference Center [1], Laird Campus, University of Delaware, Newark. This is an internal meeting.

Protein Ontology 2nd Annual Meeting: The second annual meeting of the Protein Ontology project took place in Georgetown University, Washington DC on November 18-19, 2008. This is an internal meeting. The meeting was co-located with the PRO annotation jamboree on November 20. Goal: to establish what PRO needs to do in order to ensure that the ontology is maximally useful.

Protein Ontology Kick-Off Meeting: The inaugural meeting of the Protein Ontology project took place in Georgetown University, Washington DC on December 2-4, 2007. This was an internal meeting. Goals: to subject the PRO ontology to preliminary critique, and to establish plans for its further development, dissemination and use.
